Reference No. 038443

Ms. Karen Cibulskis
Remedial Project Manager
United States Environmental Protection Agency - Region V
77 West Jackson Boulevard
Mail Code SR-6J
Chicago, IL 60604

Dear Ms. Cibulskis:

Re: Notification for Aerial Photometry Survey
South Dayton Dump and Landfill Site, Moraine, Ohio (Site)

This notification is being submitted in accordance with the Administrative Settlement and Order on Consent (ASAO) for Remedial Investigation/Feasibility Study (RI/FS) Proceeding Under Sections 104, 107, and 122 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, 42 U.S.C. SS 9604, 9607, and 9622 [United States Environmental Protection Agency (USEPA)] Docket No. V-W-06-C-852) effective August 15, 2006.

Conestoga-Rovers & Associates (CRA) has scheduled the aerial photometry work for the Site to commence on April 2, 2008. The work was proposed in the Land Survey, Bathymetry Survey, and Geophysical Investigation Letter Work Plan, which was electronically submitted to your attention on March 14, 2008.

CRA understands that the Letter Work Plan has not been approved by the USEPA; however, the nature of the aerial photometry survey requires that the work be completed in early spring before foliage is established on Site trees and shrubs. Based on your telephone conversation with Stephen Quigley of CRA on March 19, 2008, that the USEPA is willing to allow the aerial photometry work to proceed.

The work will require that visual targets are established on-Site and surveyed for horizontal and vertical control. The Site will then be flown and photographed. Field activities associated with this work are expected to be completed within a one-week period of time. As requested by USEPA, horizontal locations will be surveyed relative to the North American Datum of 1983 (NAV 83) coordinates in addition to the Ohio State Plane Grid Coordinates as specified in the Letter Work Plan. Elevations will be survey to the North American Vertical Datum of 1988 (NAVD 88) as specified in the Letter Work Plan.
